Headteacher: Miss H Grasby

Dear families,

We are delighted to inform you that we have purchased a year's subscription to ActiveLearn from Pearson Education to support with home learning and reading. This will give all children from Reception to Year Six access to Bug Club, an online reading scheme which matches their book-banded books from school.

To access ActiveLearn, go to www.activelearnprimary.co.uk. Then enter your child's log-in details.

- Your child's username follows the same format as their log-in for RM Unify, which they should already have. Typically, this is the child's last name and first initial.
- In KS2, your child's password is the same password as their log-in for RM Unify, which they should already have. In Reception and Key Stage One, your child's password has been created and will be given to your child.
- The school code for Olive Hill is prhr.

Once they have logged in, they will be able to access books that their teacher has allocated for them by clicking on 'my stuff'.

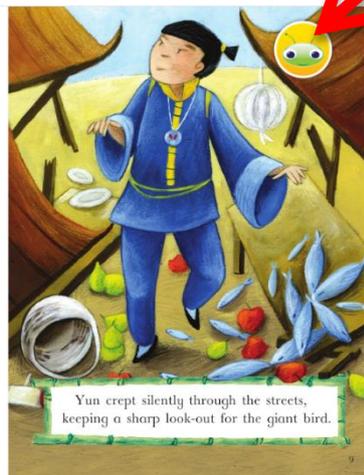

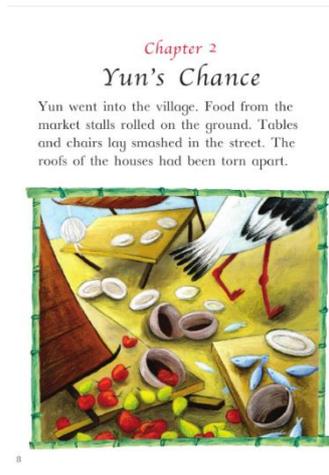

Learning together, achieving success.

@olivehillpri

As the children read the books, they should look out for the bug symbol. They can click this to answer quiz questions about what they have read. Completing quizzes earns coins which your child can then spend on rewards.

As the children complete books, they will be moved to 'My Library' for them to read again if they wish. The children will be allocated new books by their teacher in 'My Stuff'.

If you are experiencing difficulties, you can access the help section of ActiveLearn. The platform works best on desktop computers, laptops or tablets. You should check that you do not have a pop-up blocker enabled as this will prevent the book pages from opening.

We know the importance of reading and the positive impact a regular reading habit can have on a child's happiness, wellbeing and academic success. We hope that all of our children will be encouraged to use Bug Club regularly to maintain their reading diet. Children will continue to have printed reading books in school to bring home.

Kindest regards,

Mr Priest
Deputy Headteacher

Learning together, achieving success.
